Were you satisfied with the academic aspects of Movement Method?

18 responses

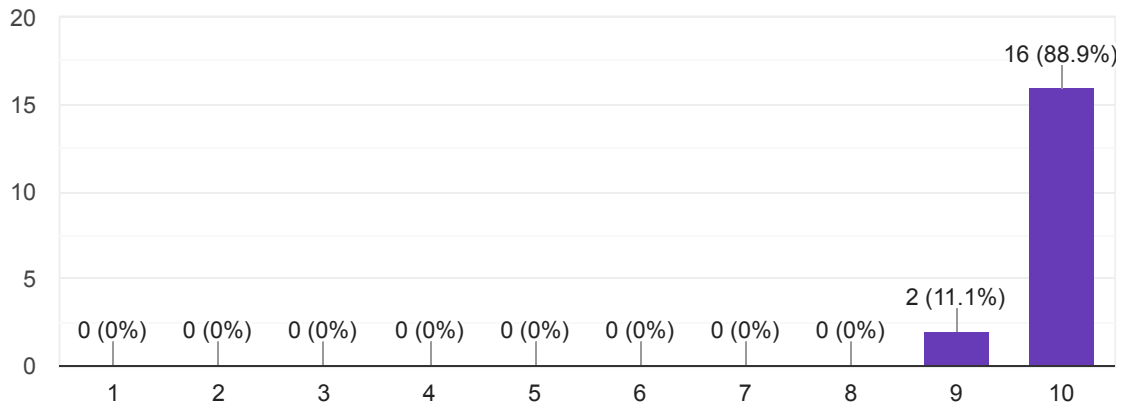

Were you satisfied with the focus on emotional well-being of Movement Method?

18 responses

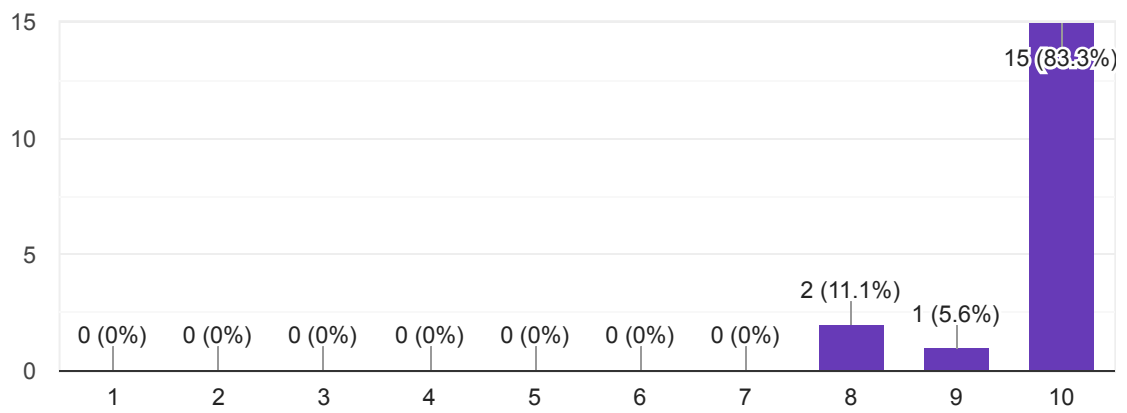

Were you satisfied with the project based learning aspects of Movement Method?

18 responses

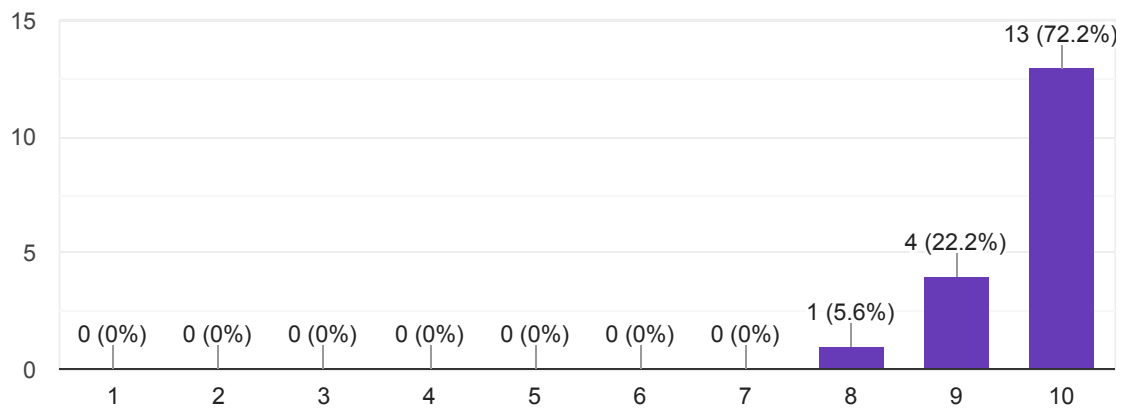

Were you satisfied with outdoor aspects of Movement Method?

18 responses

What is your overall satisfaction of Movement Method?

18 responses

What feedback about any of these aspects or others would you like to share?

5 responses

Our child was more engaged and learned so well with the hands on approach. We so appreciate Mr. Lang and his class!

I know with COVID restrictions it was difficult to truly do what you wanted to do with your class at sometimes. I love that they were outside as much as possible. I hope in the future you are able to incorporate more project based learning :)

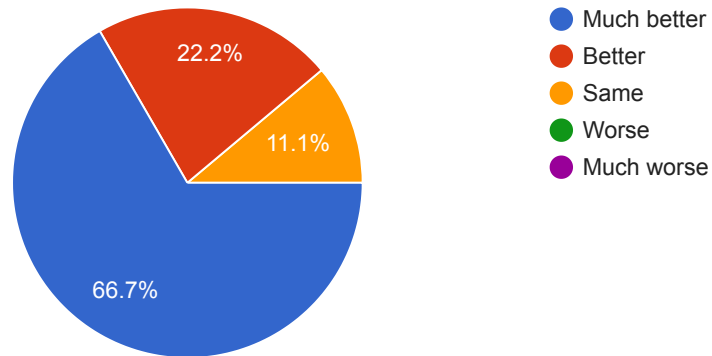

Mr. Lang did a great job to incorporate the Movement Method in class. He is a very well educated teacher and I can tell he cares for his students growth and development. Thank you Mr. Lang.

Ramiro Renteria

My daughter comes home excited to share all the cool things that she did that day.

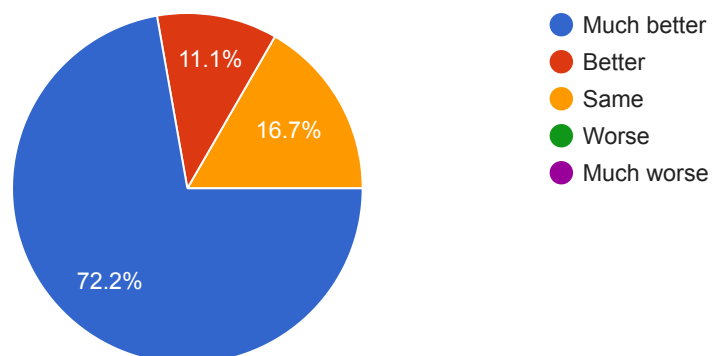

How was your child's enjoyment/attitude towards school, compared to past years?

18 responses

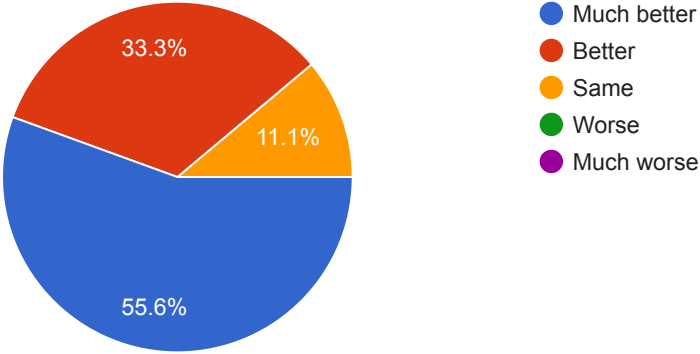

How was your child's intrinsic motivation towards school, compared to past years?

Is there any other feedback you wish to give?

11 responses

There needs to be more opportunities to take this class in middle school. One year is not enough. My daughter has always liked school but was getting way to stressed out worrying about her grades, movement method helped her by bring the fun back to learning since she didnt make it into the middle schools program I'm afraid that she will go right back to how things use to be, worried and stressed out if she doesn't get the right answer.

Academically I feel that Mr. Lang pushed my child to be the best they could be. When they met and academic goal, Lang put forth a new goal for them to strive towards. My child doesn't like learning regularly, but when it comes to some of the projects I saw them bloom and excel. Hopefully this program continues to grow.

Thank you for all you do. I hope and pray my daughter has another great teacher next year that is inspiring. Thank you for your hard work and motivation.

Ramiro Renteria

Mr Lang is an awesome teacher. TyLynn enjoyed his class and she came out of her bubble
